

MCCMA is an association of professional local government managers in the State of Maryland. It is an affiliate of both the Maryland Municipal League (MML) and the International City/County Management Association (ICMA).

The Association holds an annual educational conference in the spring and a winter meeting/holiday party in December. Other meetings are held during the MML and ICMA Annual Conferences. These meetings provide an opportunity for professional development and fellowship. Members can also participate in an email discussion group.

The International City/County Management Association (ICMA) provides administrative support for MCCMA. If you have any questions, please contact us at mccma@icma.org.
